

Stay Clean Hull & Deck Cleaner

Stay Byotrol Clean's unique patented technology leaves an invisible barrier on surfaces leaving them cleaner longer.

When applied according to instructions, Stay Byotrol Clean will clean stains caused by algae, mold and mildew while deodorizing surfaces, and will decrease cleaning time after each subsequent application, making it an ideal maintenance cleaner.

How to use Stay Byotrol Clean Hull & Deck Cleaner:

Dilute the Stay Byotrol Clean Hull & Deck Cleaner 20:1 (20 parts water to 1 part Concentrate). Apply the diluted product with spray, sponge, brush or cloth, ensuring that all surfaces are thoroughly wet. Let air dry. Pre-clean heavily soiled areas with suitable detergent.

Stay Byotrol Clean creates an invisible barrier against mold and mildew staining and odors. It has no adverse effect on wood or teak. With regular use, all deck and hull surfaces Stay Byotrol Clean longer, making this product an ideal maintenance cleaner. Safe on canvas and most boat fabrics. As surfaces may vary, pre-test on an inconspicuous area first.

Apply prior to winterizing, for off-season protection from mold and mildew stains during storage. Apply again prior to boating season. Use 3-4 times per season to retain the Stay Byotrol Clean mildew stain-free appearance.
