

Stay Clean Canvas & Sail Cleaner/Protector

Apply Stay Byotrol Clean™ to canvas and sail covers to maintain that mildew stain free appearance. The Canvas & Sail Cleaner/Protector will not weaken or damage stitching or fabric. Product should be applied prior to winterizing for off-season protection from mildew stains during storage. Apply during the season to retain that Stay Byotrol Clean™ appearance.

Apply Stay Byotrol Clean™ again prior to boating season. Use by spray or foam 3-4 times per season to retain the Stay Byotrol Clean™ mildew stain free appearance of canvas surfaces, sails and Bimini tops.

Stay Byotrol Clean's™ unique patented technology leaves an invisible barrier on surfaces leaving them cleaner longer. When applied according to instructions, Stay Byotrol Clean™ will clean stains caused by algae/mold/mildew and prevent damp canvas odors. Each subsequent application will decrease future cleaning time, making it an ideal maintenance cleaner.

How to Use Stay Clean Canvas & Sail Cleaner/Protector:

Apply Stay Byotrol Clean™ prior to winterizing, for off-season protection from mildew stains during storage. Clean sails on a smooth surface. Use a soft bristle brush to remove dirt and salt. Apply Stay Byotrol Clean™ with spray, brush, or sponge ensuring that all canvas and sail covers are thoroughly wet; air dry. Pre-clean heavily stained areas, if necessary by using mild soap and bleach solution. As surfaces vary, test on an inconspicuous area. Dry by hanging in a well ventilated space; when sure that sails are dry, store folded or rolled
